

CCW-LIQUI-DECK MATERIAL CERTIFICATION

This is to certify that the Carlisle Coatings & Waterproofing Liqui-Deck liquid applied membrane is a two-component polyurethane compound for preparing and leveling rough concrete surfaces prior to the installation of CCW MiraDRI 860/861 Sheet Waterproofing Membrane. The low-viscosity compound fills voids and cures to form a well-adhered elastomeric membrane on horizontal decks. CCW-Liqui-Deck is Made in the USA.

CCW manufactures the CCW-Liqui-Deck to comply with the following ASTM typical property values and meets the specification requirements:

CCW-Liqui-Deck - Property	Test Method	Typical Value*
Color	-	Black
Tensile Strength	ASTM D 412	250 psi
Ultimate Elongation	ASTM D 412	250%
Adhesion to Concrete	ASTM D 903	5 PLI
Solids Content	ASTM D 1335	100%
Low Temp Flexibility	ASTM D 522	-25 ⁰ F
Pot Life @ 70°F (21°C)	-	1 hr
