Seasonal LM-800 XL now available

Oct. 10, 2019, Wylie, Texas – Carlisle Coatings & Waterproofing is now shipping CCW LM-800XL WG for seasonal use October through March. The new lower viscosity product is easier to tool when temperatures drop below 70 degrees F.

CCW LM-800XL WG Liquid Mastic 5 Gallon Pail (P/N 334671) and CCW LM-800XL WG Mastic Tubes (P/N 334672) will replace standard grades until next spring.

CCW LM-800XL and LM-800XL WG Liquid Mastics are fast-drying elastomeric, single-component, cold-applied liquid mastics. They are accessory products used with CCW Air and Vapor Barrier Membranes, CCW MiraDRI® 860/861 sheet waterproofing membrane and CCW R2+® polyiso insulation board.

For more information, contact your area sales representative or CCW customer service representative at 888-229-0199; or customerservice@carlisleccw.com

Carlisle Coatings & Waterproofing is a leading provider of waterproofing membranes, membrane air barriers and foam board insulation products. Its 21st century product line-up includes: MiraPLY, MiraSEAL, MiriDRI and MiraDRAIN waterproofing products; Barritech, Barrithane and the 705 series of membrane air barriers; as well as the R2+ line of polyiso wall insulation.

Headquartered in Wylie, Texas, the company has waterproofing/air barrier plant locations in Texas and Pennsylvania. Carlisle Construction Materials has polyiso plants located in New York, Pennsylvania, Florida, Texas, Illinois, Utah and Washington. CCW is part of Carlisle Companies Incorporated (NYSE: CSL).
